accessories,
instruments
and music
education.*

Whether you're a professional, recreational or beginning player, an instrument that is not properly adjusted and regularly serviced can be frustrating and disappointing. Even a brand new instrument may not play up to its potential due to lack of, or improper adjustment.

At Guitar Workshop I pride myself in the ability to bring out the Magic Touch in your electric or acoustic guitar or bass. Bring your instrument in for a free consultation and find out how I can improve the playability, quality, value and enjoyment of your treasured investment.

Sincerely,

Dave Lynch

Music Education Lesson Program

Repair Price List

Instruction in music with the aid of a professional player can add a new dimension to your guitar or bass abilities!
We can help you to develop skills in every area of music:

- 1) **General knowledge:** learn about how the instrument works, various ways of tuning mechanics like restringing and maintenance.
- 2) **Theory:** This is the understanding of how the 12 tones in music actually work. How notes combine into chords, how chords become families called keys, applying scales etc.
- 3) **Rhythm:** Learn to groove, swing, rock, bop or otherwise articulate time.
- 4) **Ear Training:** Teach your ears to hear things with much more accuracy. Use your favorite music to explore the new knowledge you have about music!
- 5) **Improvisation and Composition.**
 - Once a week, half hour private lesson with a professional musician.
 - \$20 per lesson billable monthly: \$80-\$100
 - Monday through Saturday, daytime and evening lessons.

Store hours: Mon-Thurs 11AM to 8 PM
Friday- Sat. 11AM to 6 PM
